Proyecto Final

Requisitos

Obtener la mayor cobertura asegurando un correcto funcionamiento del core y casos críticos de la página “<https://opencart.abstracta.us/>”

- **Registro**

Que te puedas registrar correctamente y controlar los casos de registro fallidos por datos incorrectos.

- **Inicio de sesión**

Que puedas iniciar sesión con tu email y contraseña y se realice una coincidencia correcta. También se deben controlar los intentos de inicio de sesión fallidos en caso de introducir datos incorrectos.

- **Producto**

Poder añadir productos al carrito, que se contabilice correctamente la cantidad y el precio en el carrito, y que puedas eliminar productos del carrito disminuyendo la cantidad y el precio.

- **Checkout**

Realizar un proceso de checkout correcto con los datos de usuario y completar la compra del producto satisfactoriamente.
